## SQUAD SUPPORT RIFLE SYSTEM (SSRS)

The Squad Support Rifle System (SSRS) is a 30x42mm Grenade Rifle. It is an air cooled, long recoil operated, magazine fed, shoulder fired weapon that fires in semi-automatic. It utilizes fully ambidextrous fire controls, a non-reciprocating charging handle, and a fully adjustable buttstock. It comes optics-ready with a full-length angled rail and has M-LOK® slots on the 3, 6, and 9 o'clock positions, as well as the top right and top left 45-degree angle positions. The entire rifle can be disassembled to the operator level without the use of tools, including removing the barrel.

### **Specifications:**

Caliber: 30x42mm  
Magazine: 5 rounds  
Weight: 14 lbs.  
Length: 35.25 in.  
Range: 500 meters
